

Kobe University Hospital International Clinical Cancer Research Center

// Shiosai Fund //

The International Clinical Cancer Research Center (ICCRC) of Kobe University Hospital opened in April, 2017 as a new center for medical treatment, research and education on Port Island, Kobe. In close collaboration with Kobe University Hospital, the ICCRC serves as a center for advanced medical care in the Hyogo area as a research hospital of Kobe University that not only provides actual clinical care with surgical treatment as its core, but also simultaneously conducts research and development of various medical treatments.

This fund will be used to

- (1) Environmental improvement in the ICCRC,
- (2) Development and purchase of cutting-edge medical equipments, etc.,
- (3) Trainings for medical personnel, and
- (4) Support for the operation of the ICCRC,

In order to continue to provide you with medical care that will satisfy you even more in the future, we would greatly appreciate it if you would support the operation of the ICCRC through donations.

Please click here for the application form. →

Our Basic Philosophy

- To provide patient-centered medical care
- To foster warm and caring medical workers
- To develop and promote advanced medicine
- To contribute internationally through medical care
- To bolster cooperation among local medical care facilities

Our Mission

1. To promote advances in surgical and endoscopic treatments for cancer
2. To be a hub for the development of advanced treatment and innovative medical devices
3. To be a hub for promoting collaboration between medicine and engineering
4. To advance medical care with international medical institutions and to be a hub for development, research and education
5. To cooperate closely with KOBE Biomedical Innovation Cluster

We appreciate your understanding of the ICCRC's medical consultation, research and collaborative activities, and all of us at the ICCRC will make further efforts to support you. We would like to thank you again for your cooperation in the operation of the ICCRC.
